Quick set up with no make ready

Automatic Sheet Feed

Fully stripped Nick-Free pieces

Large die format

Up to 30,000 pieces per hour

Rotary Anvil - Flat Die Cutting with Pneumatically Stripped Waste

- Finished pieces are held in the die via suction cups while waste is automatically stripped up the waste hood and directed to recycling

- Unload suction cup assemblies pick and place finished pieces in neat and accurately counted stacks

- Finished units are ready for shipping prep load after load...

Load Side

Unload Side

- Sheets are picked and placed onto the cutting die via suction cup assemblies and secured to the die via registration suction cups within the die

- The die is situated on a 5° angle and compressed between the die bed and rotary anvil encompassed by a semi hard protective sleeve for knife penetration, resulting a clean shear cut and die knife longevity

Stack More. Staff Less.

Nick-Free, Multiple-Out EL-150 Die Cutter Specifications

Includes Preload and Out Feed Conveyor
